## Safeway Completing Expansion Program

Ground is being broken for the new \$500,000 five story addition to the present warehouse and office building of the Safeway Stores, in Los Angeles, which will embrace one of the largest and most up to date bakery plants on the entire Pacific Coast.

As announced by Edward Dale, vice president of the great grocery system and general manager of the 450 stores operating throughout Southern California, work on the new fireproof, reinforced concrete structure will be rushed to completion in order to care for the constantly increasing demand for bakery products from every section of Southern California.

When completed the new plant, together with the adjoining present structure, will embrace close to 240,000 square feet of floor space. The basement of the new building has been provided with a series of cold storage rooms for the storage of perishable merchandise, and is so designed that the amount of refrigeration in the various rooms may be diminished or increased depending on the season of the year.

A feature of the new bakery will be the largest travelling oven in the west, with a total length of more than 100 feet. The dough enters at one end and emerges in loaves at the other, undergoing the process of baking while travelling slowly from opening to exit. Approximately \$165,000 worth of bakery machinery will be installed.

## What the 1927 Legislature Did To the California Motor Laws

Editor's Note.—This is the last of a series of articles prepared for The Torrance Herald and The Lomita News by Ivan Kelso, chief counsel of the Automobile Club of Southern California, on new laws affecting motor car owners and drivers which became effective July 29.

### REPORT ACCIDENTS

July 29th the changes made in the Vehicle Act by the 1927 Legislature became effective. It is now necessary to report all traffic accidents in which persons are killed or injured. When an accident has occurred within a city, the report should be made to the police department, which must forward a copy to Sacramento. When an accident has occurred in the county outside of a city, the report must be made direct to the Division of Motor Vehicles at Sacramento. One who fails to comply with this provision commits a misdemeanor and can be severely punished. Full co-operation is urged so that a true picture of the serious accident situation may be obtained.

### Examination of Operators

Hereafter all who apply for licenses to operate motor vehicles must pass an examination. Applicants must reveal an ability to exercise ordinary care in the operation of a motor vehicle. Their hearing and eyesight will be tested and they must display a reasonable understanding of the rules governing the operation of motor vehicles.

### Speed Limits

While the lawful speed limit has been raised, in the open districts, to forty miles an hour, it should be remembered that an arrest for a lower speed than forty in the forty mile district would be justified if life or property were actually endangered. In other words, the limit is still a safe and prudent speed, considering the circumstances. Any speed over the so-called limit is evidence, not conclusive, but prima facie, of an unsafe and imprudent speed. Proof that life and limb were actually endangered would support a conviction, even though the speed were less than that permitted in the particular district. So don't get the idea that the Legislature has invited you to "open up" to forty regardless.

### Garage Men

The public garageman has a further duty to discharge toward the motorist. Whenever a car has been left with him for thirty days, without his knowing who the owners is, he must report this fact to the Division of Motor Vehicles, giving a full description of the machine. This provision is designed to assist the police in locating stolen cars which are put away until it is safe to move them.

Those suspicious characters who were caught tampering with a motor vehicle, but who never showed up in answer to their five days notice to appear, have lost this opportunity to get away. The five days notice has been taken from them, and they may now be locked up forthwith pending a hearing.

### Gas Tax

One cent more gas tax from now on; but it is for a good cause.

### Conclusion

This article concludes the series. On the whole the legislature has given us an improved Vehicle Act. It has been thoughtful of our safety, and has sought to keep pace with highway needs. We have reason to be grateful to our lawmakers.

### IOWA ASSOCIATION PICNIC

All the Hawkeyes of the West are included in the wide open call made by the Iowa Association of Southern California to meet in the mammoth summer picnic reunion in Bixby Park, Long Beach, all day Saturday, August 13. The Association promises all the usual picnic attractions such as the county headquarters, badges, coffee, program and jolly sociability. Picnickers may carry basket dinners and there will also be a lunch stand in the park.

Mrs. Frank Baker, Mrs. John Walte, Mrs. H. P. Christensen, Mrs. Alex. MacPhail, Mrs. Jack Nielsen, Mrs. Jack Ferguson and Mrs. Tom Wilson were among the Rebekahs who attended the School of Instruction at Long Beach last Saturday.
